

# ProCare Dent 40

# Rinsing agent

### Use:

Liquid concentrate. For the automated reprocessing of dental instruments including transmission instruments in Miele Professional washer-disinfectors.

### Quality features:

ProCare Dent 40 complies with European guidelines for medical devices. **C** € MD If a serious incident occurs with the product, report it to the manufacturer and the relevant national authority.

### **Product properties:**

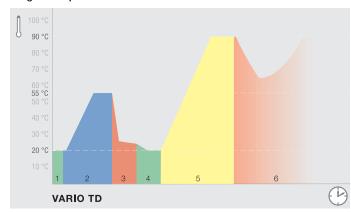

- Improves and accelerates the drying of dental instruments in machine-based reprocessing methods.
- · Neutralizes alkaline carryover and alkalinity.

# Use and dispensing:

Miele ProCare Dent 40 is formulated for use in processes in Miele Professional washer-disinfectors.

- Suitable dosing dispensers should be used.
- Application concentration: 0.3 ml/l via door dispenser for rinsing agents
- Program selection: Vario TD

### Program sequence:

# Vario TD process:

1 Pre-wash
with cold water to remove
coarse soil, e.g. blood
2 Main wash
3 Neutralization
4 Intermediate rinse
with cold water
5 Thermal disinfection
at 200 °F / 93 °C with
5-minute holding time in
the final rinse with *ProCare*Dent 40 (dispensing temperature 160 °F / 70 °C)

Miele recommends the use of fully demineralized water in the final rinse in order to protect the load and the washer-disinfector against stains and deposits and to protect anodized aluminium.

### Please note!

- Do not mix with other products.
- Contact Miele Service when switching products.
- Reprocessing should comply with all ordinances pursuant to medical device regulations and should be performed with appropriate validated processes.
- Observe recommendations on reprocessing issued by medical device manufacturers with respect to the provisions of DIN EN ISO 17664.
- Operating instructions on Miele Professional washer-disinfectors must be observed.
- For commercial applications only.

# ProCare

# Rinsing agent

### Technical data:

- Density (at 68 °F / 20 °C): approx. 1.1 g/cm<sup>3</sup>
- pH value (determined using fully demineralized water, 68 °F / 20 °C) 0.3 ml/l: approx. 3.8

# Ingredients according to Regulation (EC) No 648/2004 on detergents:

- < 5 % phosphonates
- 15 to 30 % non-ionic tensides
- Also preservatives (methylchloroisothiozolinone / methylisothiazolinone)

### Storage information:

- $\bullet$  Storage temperature: 32 °F to 86 °F / 0 °C to 30 °C
- Can be used for 3 years under proper storage conditions
- Use-by date: See label next to hourglass symbol ≚

# Warning and Safety notes:

For safety and environmental information, cf. safety data sheets. These are available from Miele websites listed below.

Dispose of containers only when empty and sealed. Disposal of product residue: refer to safety data sheet.
