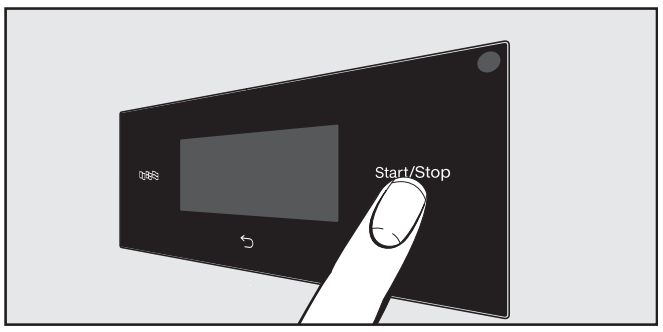
Miele

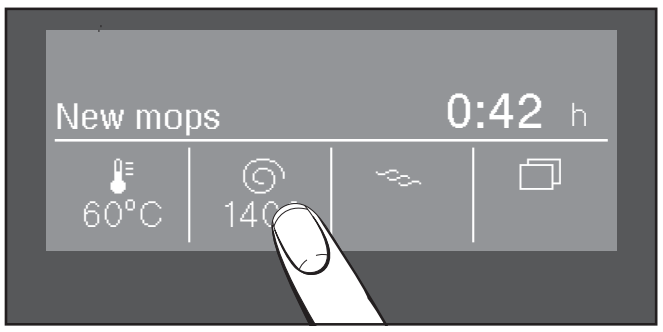
⚠ It is essential to read the operating instructions and pay particular attention to the warnings and safety notes.

Touch display and sensor controls



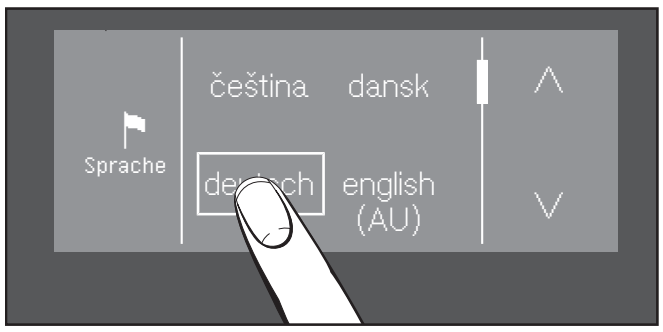
- Switch on the appliance with the ⏻ button.

The ⧉, ⮌ and *Start/Stop* sensor controls and the sensor controls in the display react to finger tip contact.



You can change or activate the temperature, spin speed or Extras by touching the 🌡, ֍ and ⌁ sensor controls.

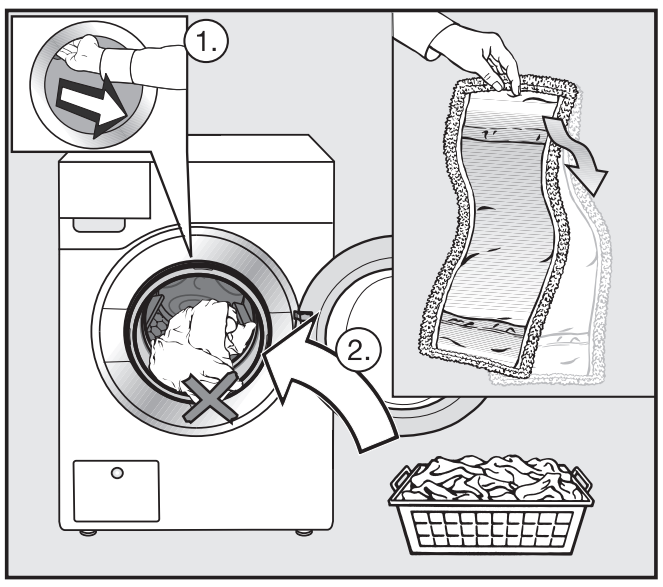
❶ Selecting the language



- Touch the ⧉ sensor control.
- Touch the ∧ or ∨ sensor control until the language you want appears in the display.
- Select the language.

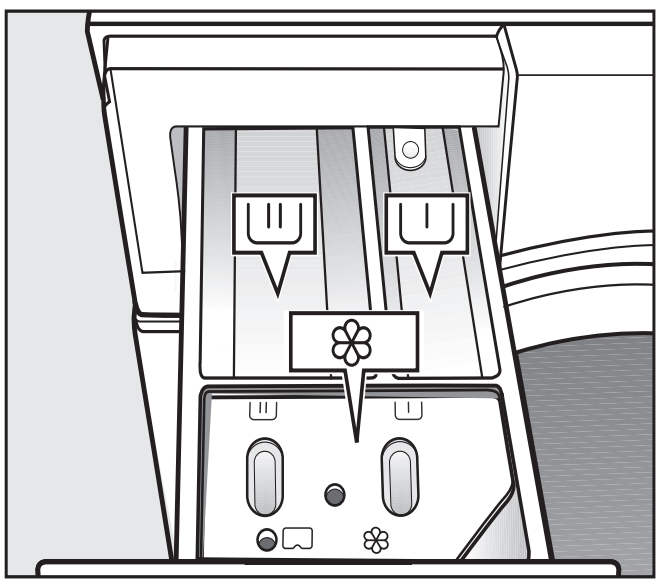
Mops

❷ Loading the washing machine



- Always shake mops out thoroughly before washing them.
- Open the door and put the mops inside.
- Shut the door with a gentle swing. Make sure mops do not get caught in the door.

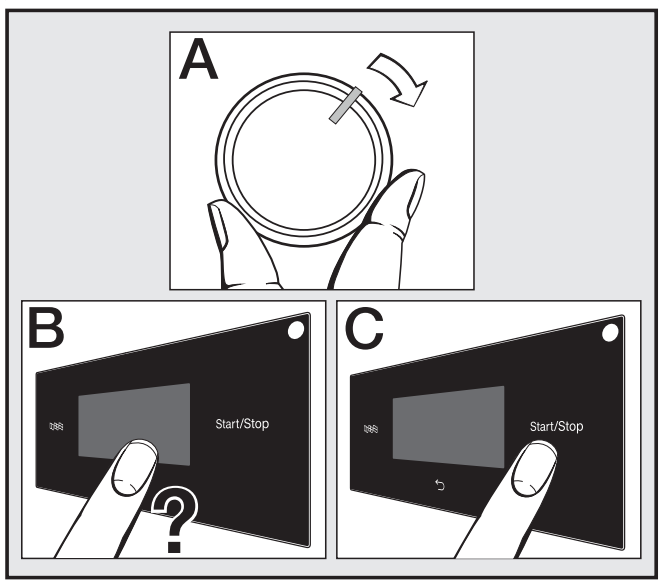
❸ Adding detergent



- Fill compartment ⧉ with detergent.
- Fill compartment ❀ with pre-treating agent.

For disinfection programmes, the ⧉ and ⧉ compartments can be filled with detergent.

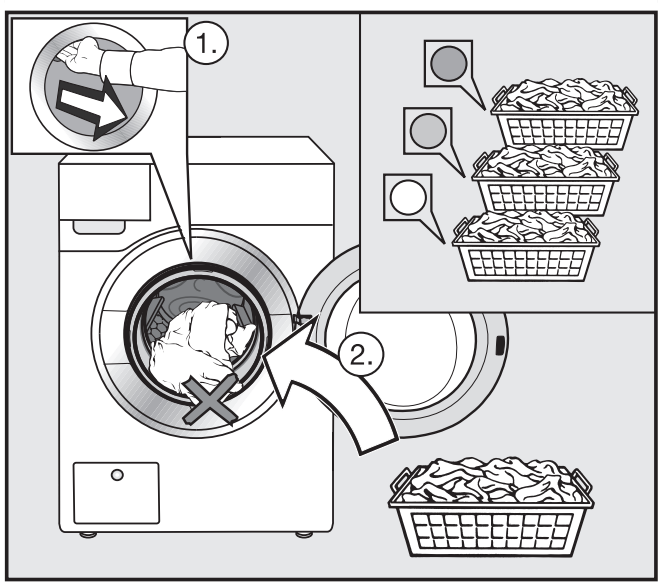
❹ Selecting and starting the programme



- Select a programme (A).
- Select the spin speed and Extras (B).
- Touch the *Start/Stop* sensor control (C).

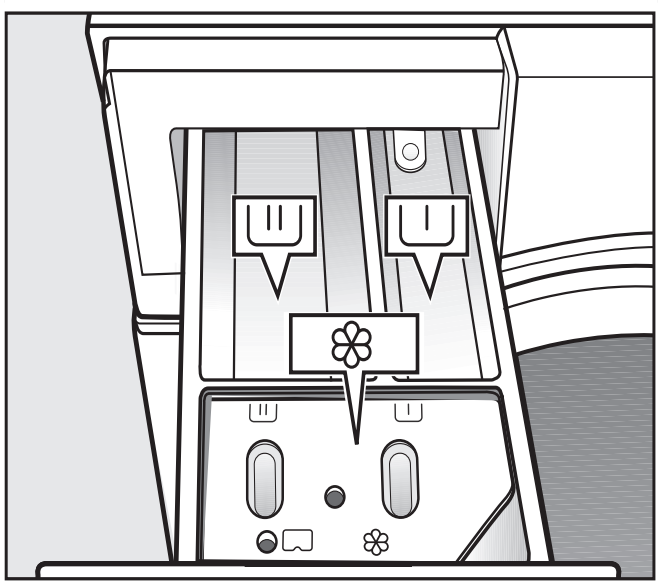
Cleaning cloths

❷ Loading the washing machine



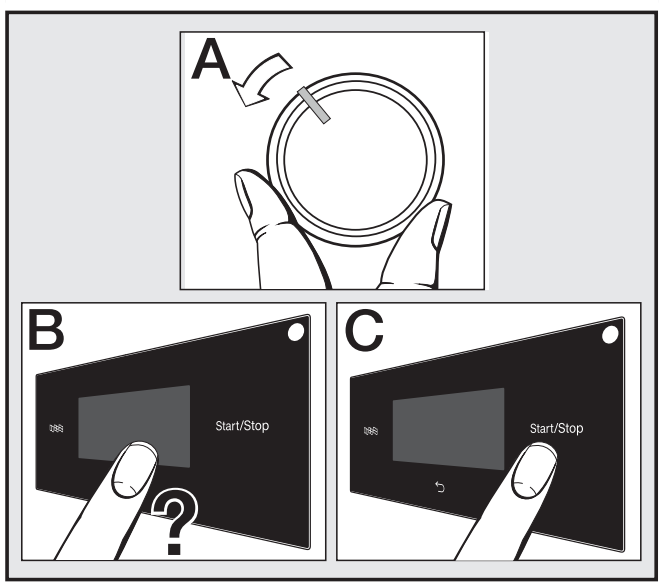
- Sort cleaning cloths by colour.
- Open the door and put the cloths inside.
- Shut the door with a gentle swing. Make sure cloths do not get caught in the door.

❸ Adding detergent



- Fill compartment ⧉ with detergent for the pre-wash, if selected.
- Fill compartment ⧉ with detergent for the main wash.
- Fill compartment ❀ with pre-treating agent.

❹ Selecting and starting the programme



- Select a programme (A).
- Select the spin speed and Extras (B).
- Touch the *Start/Stop* sensor control (C).
