Miele

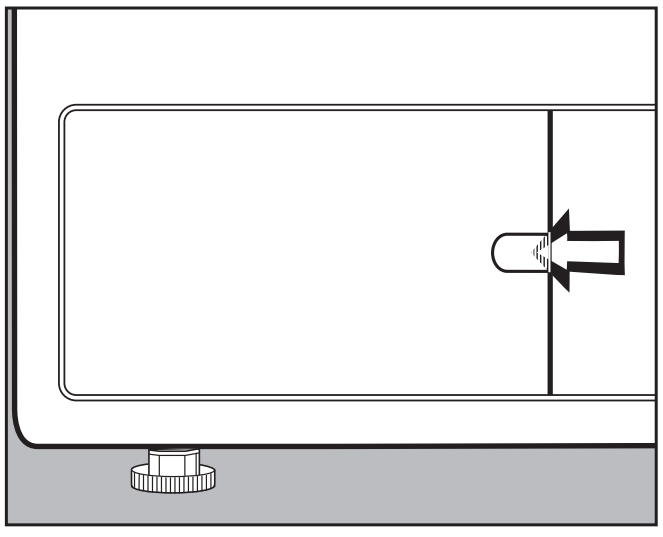
Tip: Have a vacuum cleaner ready

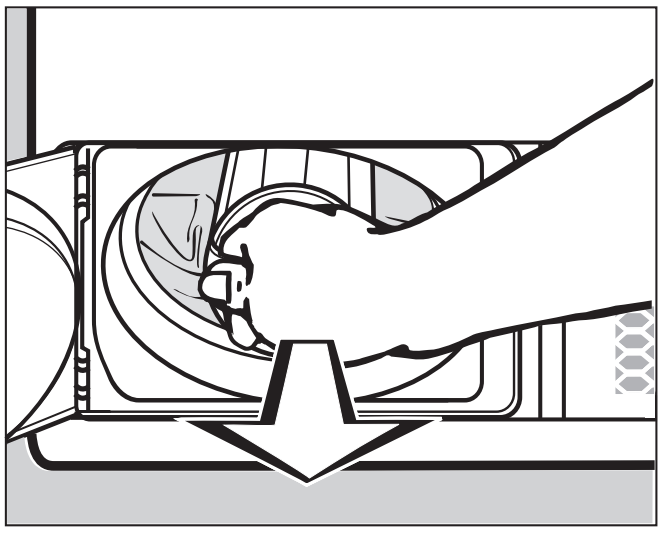
Cleaning: After drying – and whenever Clean out airways or Clean the filters appears in the display



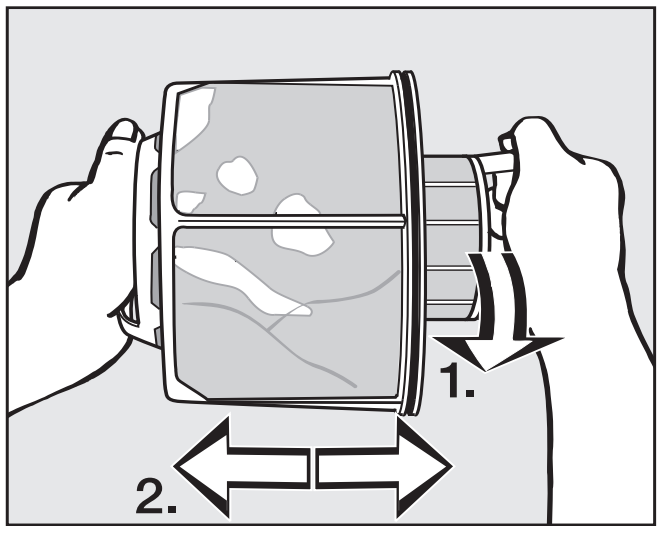
The tumble dryer stays switched on.

- Open the fluff filter flap.

Reminder goes out after 10 seconds.

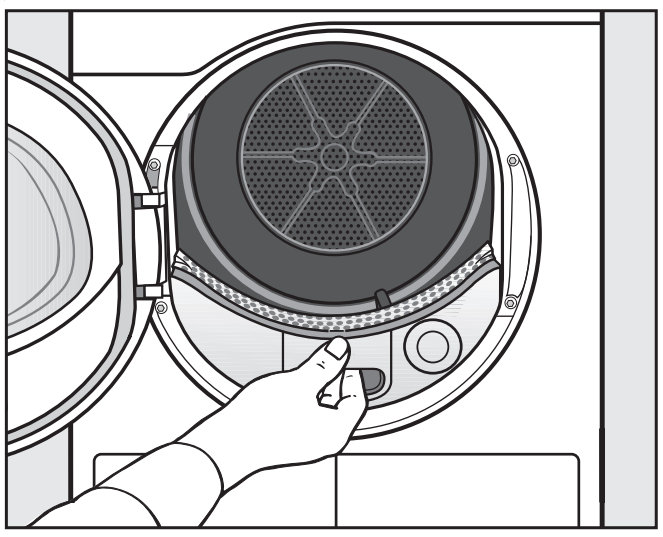


- Remove the fluff filter.
- Check the fluff filter at regular intervals for signs of wear.

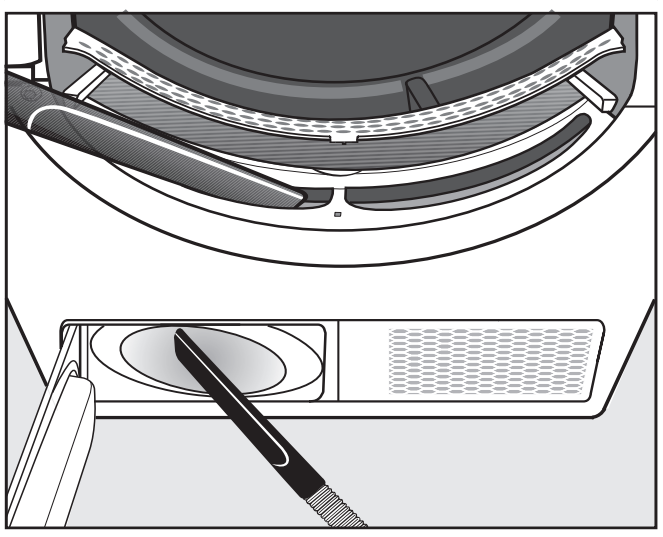


- Take the fluff filter apart.
- Remove the fluff from both sections with your fingers or with a vacuum cleaner.

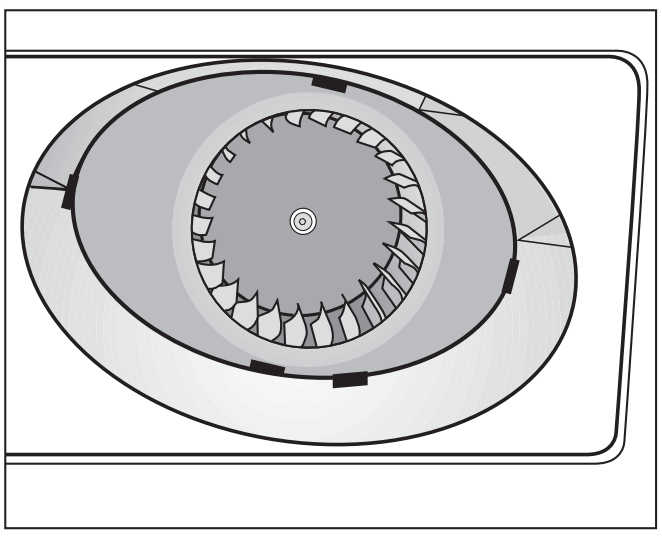
– Also check and clean if necessary



- Remove the cover.
- Use a damp cloth to remove fluff from the cover.

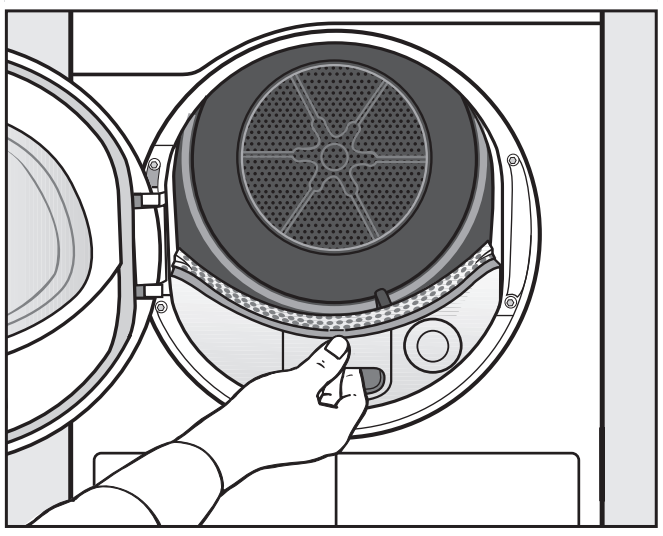


- Use a vacuum cleaner and crevice nozzle to remove fluff.

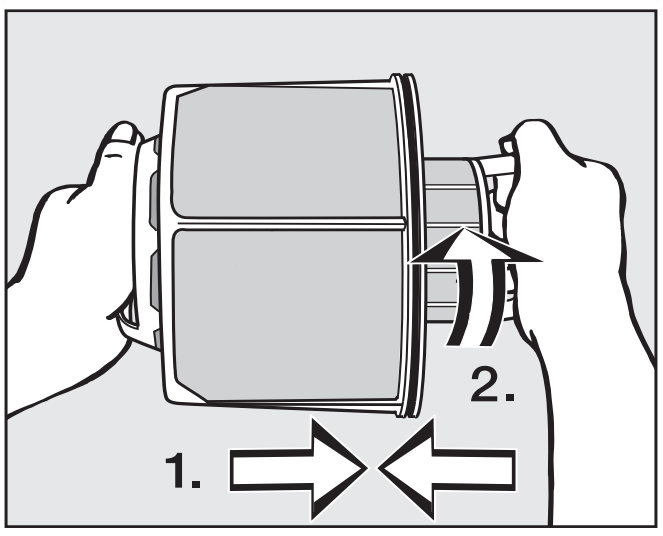


- Carefully remove the following with a damp cleaning cloth:
  . . . deposits on the fan wheel
  . . . fluff from the area in front of the fan wheel

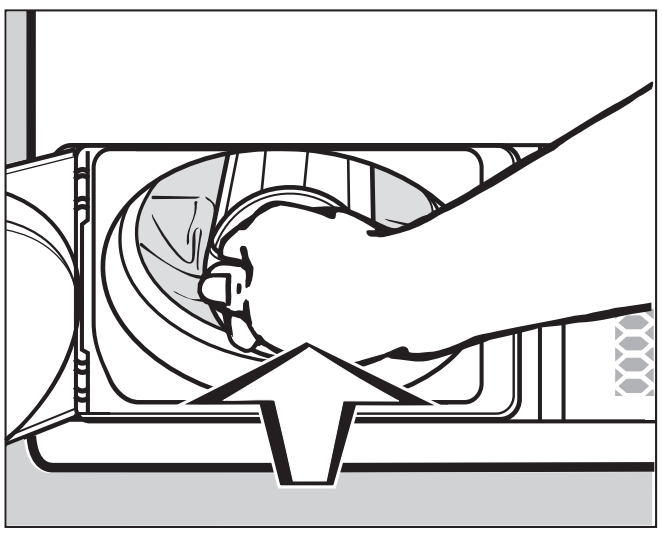
Refitting the cover and fluff filter



- Slide in the cover.



- Put the fluff filter back together.



- Slide in the fluff filter.
- Close the fluff filter cap.
