## ❶ Before you begin

■ Turn on the iron with the "On / Off" button ⏻.

The "Finger guard" symbol will flash.

■ Now activate the finger guard by lifting it.

❷ Ironing

The Start button begins to flash as soon as the minimum temperature is reached.

■ Now press the flashing "Start" button to start up the ironer.

❸ Select the temperature

■ Set the corresponding heater plate temperature according to the type of fabric.

Type of fabric	Symbol	Temperature
Nylon / Polyester / Other synthetics	●	212 - 230 °F (100 - 110 °C)
Silk / Wool	● ●	231 - 302 °F (111 - 150 °C)
Cottons / Linens	● ● ●	304 - 362 °F (151 - 185 °C)

❹ Selecting the iron speed

■ Select the roller speed.

Symbol	Speed range
-	Low speed range
- -	Medium speed range
- - -	High speed range

❺ Laundry feed
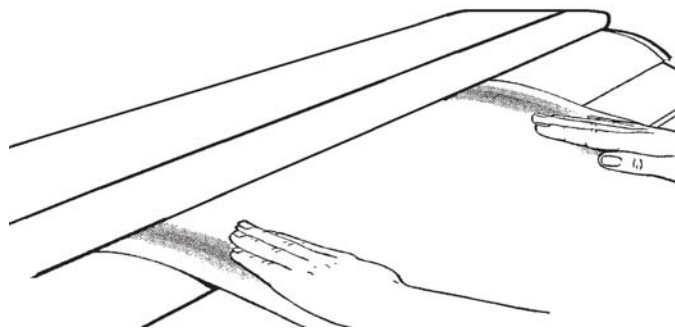

■ Lay the item parallel to the roller at the beginning of the laundry infeed table.
■ Smooth the item.
■ Feed the item into the machine.

❻ FlexControl footswitch

■ While ironing, press the FlexControl footswitch with your foot to switch the iron to steaming mode and steam the laundry.

Continuing the ironing procedure

■ Remove your foot from the footswitch again to continue with the ironing procedure.

Ironing with a coin-operated payment system

■ Turn on the iron using the "On / Off" button ⏻.

The ⛁ display symbol flashes.

■ Insert the coin or token.

The ⛁ symbol will go out in the display.

■ Select the corresponding temperature range according to the type of laundry.
■ Select the roller speed.

After the ⬆ indicator light goes out, the rotary iron is ready for ironing and the countdown of the purchased ironing time begins.

■ Press the Start button to begin ironing.

At the end of the ironing time, the heater plate lowers and the roller comes to a standstill. The ⛁ symbol flashes. More ironing time can be purchased at any time.
