

### 1. Product Identifier

Name : UltraColor  
Material code : 00000230  
Formulation-No. : R19925

### 2. Supplier

Miele, Inc.  
9 Independence Way  
Princeton, NJ 08540  
USA  
T 1-800-999-1360

### 3. Ingredients

| Name of ingredient                                                                                                            | CAS number  | Functional purpose            | Designated List(s) * |
|-------------------------------------------------------------------------------------------------------------------------------|-------------|-------------------------------|----------------------|
| ZEOLITE                                                                                                                       | withheld    | zeolites                      | -                    |
| SODIUM CITRATE                                                                                                                | withheld    | pH adjuster                   | -                    |
| SODIUM CARBONATE                                                                                                              | 497-19-8    | builder, pH adjuster          | -                    |
| SODIUM SULFATE                                                                                                                | withheld    | carrier                       | -                    |
| ALCOHOLS, C10-C18, ETHOXYLATED                                                                                                | 157627-86-6 | non-ionic surfactants         | -                    |
| CITRIC ACID                                                                                                                   | 77-92-9     | pH adjuster                   | -                    |
| SODIUM C10-13 ALKYL BENZENESULFONATE                                                                                          | 68411-30-3  | anionic surfactants           | -                    |
| Reaction product of Benzenesulfonic acid, 4-C10-13-sec-alkyl derivs. and Benzenesulfonic acid, 4-methyl- and sodium hydroxide | withheld    | anionic surfactants           | -                    |
| Sokalan® CP 7 Granulat NL                                                                                                     | withheld    | additive                      | -                    |
| TRISODIUM DICARBOXYMETHYL ALANINATE                                                                                           | withheld    | chelating agent               | -                    |
| SODIUM SILICATE                                                                                                               | 1344-09-8   | additive                      | -                    |
| FATTY ACIDS, C16-18, SODIUM SALTS                                                                                             | withheld    | soap                          | -                    |
| Agglomerates based on bentonite                                                                                               | withheld    | additive                      | -                    |
| CELLULOSE GUM                                                                                                                 | withheld    | dispersant                    | -                    |
| SUCROSE                                                                                                                       | withheld    | additive                      | -                    |
| AQUA                                                                                                                          | withheld    | solvent                       | -                    |
| SODIUM DIETHYLENETRIAMINE PENTAMETHYLENE PHOSPHONATE                                                                          | withheld    | phosphonates, chelating agent | -                    |

| Name of ingredient                        | CAS number | Functional purpose     | Designated List(s) * |
|-------------------------------------------|------------|------------------------|----------------------|
| VINYLPYRROLIDONE/VINYLM IDAZOLE COPOLYMER | withheld   | additive               | -                    |
| Parfum                                    | withheld   | perfumes               | -                    |
| TITANIUM DIOXIDE                          | 13463-67-7 | colorant               | (9)                  |
| TRITICUM VULGARE STARCH                   | withheld   | additive               | -                    |
| SUBTILISIN                                | 9014-01-1  | enzymes                | (8)                  |
| MONOSODIUM CITRATE                        | withheld   | pH adjuster            | -                    |
| TRIDECETH-8                               | withheld   | non- ionic surfactants | -                    |
| AMYLASE                                   | 9000-90-2  | enzymes                | (8)                  |
| Isotridecanol, ethoxylated                | withheld   | non-ionic surfactants  | -                    |
