DAS2620, DAS2622 Living, DAS2620 EXTA, DAS4620, Installation drawings

1) The front section of the wall unit must be fitted with a base panel to secure the cooker hood. If the appliance is fitted further back, e.g. to accommodate a front panel, then the shelf depth should be deeper accordingly., 2) If a partition wall is to be provided in the unit, it must be removable., 3) Extraction, recirculation with conversion kit DUU 150., ,\* In this installation situation, the deflector plate is flush with the front edge of the housing unit carcase., If you wish to position the cooker hood further forward or further back (e.g. because it has a front panel), dimensions have to be adapted accordingly., Extraction: the height of the wall unit and the cut-out dimensions must take into account any accessories fitted, e.g. silencer, recirculation hood conversion kit).
