

Miele

They Deserve the Best Care.
You Deserve the Best Solutions.

Miele Professional. Immer Besser.

360 PRO

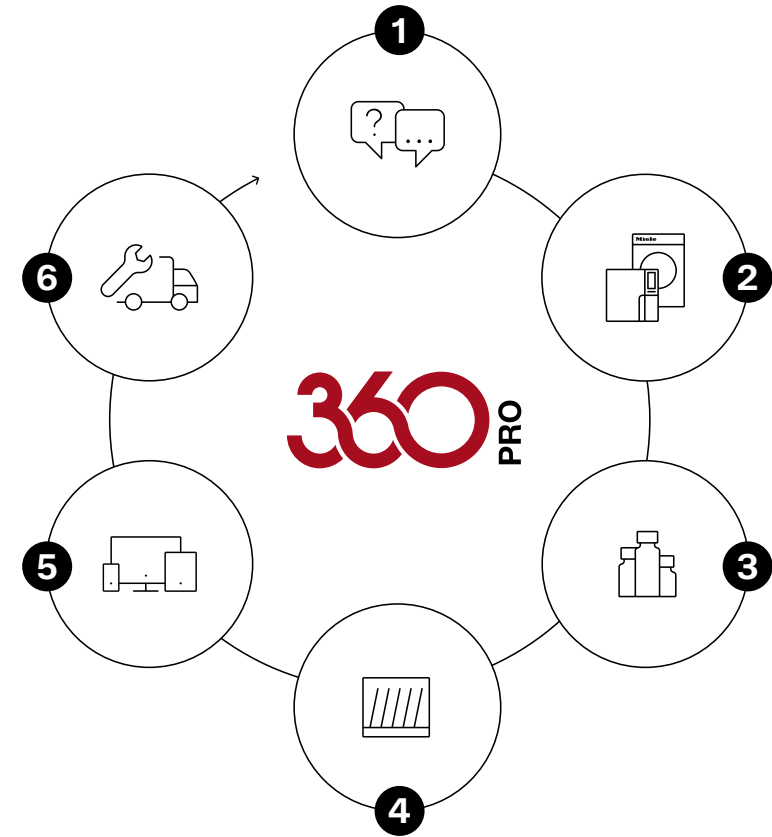

“

We knew that Miele would provide the quality of clean that we needed for our hospital. It is also part of our green credentials to make sure that we were using equipment that is as sustainable as it could be.

”

Iqbal Dhanji, Co-Founder, The Ralph Veterinary Referral Centre, United Kingdom

Miele 360PRO. The Hygiene System Solution for All Vets and Animal Care.

Our comprehensive system solutions guarantee hygienic reprocessing of your instruments and textiles, thanks to top-quality washers and sterilisers, custom programmes, and specialised process chemicals. Along with expert support and quality made in Germany, we ensure the highest standards of care.

1 Consultations

To determine the best solutions, we carry out cost calculations and savings forecasts. We also offer CAD designs for customers who require planning support, visualising your spaces and supporting with all technical requirements.

2 Machines

Durable machines that enable resource savings thanks to advanced technology. We offer a wide range of machines, from washer disinfectors to sterilisers and professional laundry machines with dedicated hygiene programmes.

3 Process chemicals

Process chemicals to treat your instruments gently but thoroughly, specifically created to preserve all the properties of your instruments and to ensure the best results from your Miele machines.

4 Components

Inserts and components ensure that all types of instruments are thoroughly cleaned before sterilisation takes place, as well as offering full flexibility and increased capacity.

5 Digital solutions

Full visibility of your machine activity directly accessible online from anywhere, with one click, including process documentation and traceability of all cycles to ensure full transparency of your instrument reprocessing.

6 Service

Whether you need advice on cycle programmes, repairs or regular maintenance, our Service team ensures that your machines never stand still.

Is 360PRO Suitable for My Practice?

For all sizes

With 360PRO, you benefit from the highest quality cleaning, disinfection and sterilisation of instruments in your veterinary facilities – no matter how many instruments you need to reprocess daily. From small local practices to large specialised clinics and animal hospitals, we have solutions that fit all needs ensuring there that instruments and textiles are always readily available and reprocessed to the maximum levels of hygiene.

For all disciplines

With Miele Professional, you benefit from solutions that can be flexibly adapted to different requirements. Whether you run a general veterinary practice or a specialised surgical clinic, we offer appliances and systems tailored to your needs. Our flexible baskets and components allow reprocessing all types of instruments, so you are not limited to certain types of treatments. In addition, we offer customised solutions for every challenge: from selecting the right machines to installing tailored programmes – we support you in organising your practice more efficiently so you can respond optimally to all medical requirements.

For optimised workflows

An efficient workflow is crucial to the success of your practice. With user-friendly solutions from Miele Professional, you can optimise workflows so that more treatments can be performed in less time and with higher precision. Faster reprocessing cycles and reliable equipment ensure that your clinic remains productive, so that your staff can focus on animal care.

Our digital solutions offer improved traceability of all cleaning and disinfection cycles. View the status of your machines at any time, receive notifications of potential problems or errors, and benefit from direct Service calls. Simple, user-friendly data visualisation enables you to create sustainable strategies for improved efficiency in your practice.

For everyone's safety

With our 360PRO solutions, we help veterinary facilities create hygienic work environments that ensure safety for staff, animals and their owners. A hygienic, controlled environment is not only crucial for infection prevention – it also promotes confidence in your business. Make your clinic stand out from the crowd: offer a premium experience of hygiene to your clients and your teams with 360PRO.

The Solutions at a Glance.

360PRO offers solutions for all washing, disinfection and sterilisation needs. We deliver reliable, efficient, and tailored systems to meet the highest industry standards.

Washer disinfectors

Performance, efficiency and safety: the Miele Professional washer disinfectors adapt perfectly to your instrument volume and individual space requirements. Whether you need undercounter devices or benchtop models, our solutions are designed to meet the highest standards for every workspace.

Small sterilisers

Reliable and safe throughout the entire process: small sterilisers guarantee a quick turnaround of instruments, ease of use and secure data transmission for cycle traceability.

Little Giants

Reliable machines are essential for maintaining consistently high standards in laundry processing. Miele Professional's Little Giants are compact, yet powerful laundry machines designed to meet specific needs in smaller spaces while ensuring top-quality and durability. These machines provide the ideal solution for businesses with limited space but demanding performance and hygiene requirements.

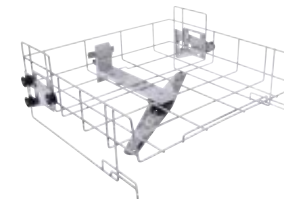

Benchmark Series

Miele Professional also offers the Benchmark models that set industry standards in quality, reliability, and longevity. These machines are engineered to handle the toughest demands, offering exceptional performance, efficiency and capacity for medical environments where high volumes of laundry are reprocessed daily.

Process chemicals and detergents

A perfect interplay: our ProCare process chemicals ensure thorough disinfection while preserving the materials of your instruments. Our laundry detergents work in perfect synergy with our laundry machines for maximum levels of hygiene.

Components

Optimally designed for every need: versatile baskets and components ensure that all instruments are thoroughly washed with no residues left before sterilisation.

Miele MOVE Connect gives you full visibility of machine status across your veterinary clinic while also optimising maintenance processes.

Miele

Protection Deserves the Best Service.

Repairs and spare parts

Our goal is always to resolve any failures as quickly as possible. We are here for you, coordinating appointments and guaranteeing the availability of the right spare parts — up to 15 years after production of your machine ends.

Regular service

To prevent disruptions from occurring in your daily work, regular preventive maintenance is essential. Choose one of our Service packages and benefit from long-term protection for your machines.

Inspections and maintenance

Regular checks of process parameters enhance operational safety and ensure a high standard of cleaning results. We are also happy to provide advice on optimal machine maintenance.

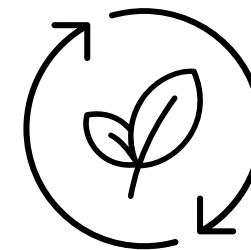

Our Service is called PROtect.

PROtect combines comprehensive services, maximum budget control, and seamless spare parts supply. Our professional team performs service tasks quickly and reliably, ensuring optimal installation and continuous operational readiness.
