Mat.no. 10869850  
Art.no. 67540201D

Reusable medication cups and lids made from plastic increase sustainability levels in hospitals and care and nursing homes. The new dishwasher basket inserts from Miele Professional deliver perfect results: They reliably hold light-weight items tight, making sure they are exposed to jets of water throughout the entire program cycle. This guarantees perfect hygiene and simplifies work.

**Added value across the board:** Profit with ProCare Shine cleaning agents not only from improved hygiene but also from particularly effective dishwashing processes and proven machine compatibility.
