Move your
Practice.

Miele
MOVE

Miele MOVE. Your digital solution
for efficient machine, data and
process management.

Efficient machine, data and process management in doctors' and dentists' surgeries.

MOVE your Practice.

Miele MOVE Digitalisation for Practices

Intuitive, transparent, efficient: Miele MOVE connects washer-disinfectors and thermal disinfectors to continuously improve instrument reprocessing in your practice. Digital solutions combine convenient user interfaces with useful functions such as process documentation and direct service support. Make your next move!

Manage
complex machine data
without assistance

Optimise
work processes to spend
more time with patients

Visualise
and approve process data

Enable
greater process security
and independence

Full proof of hygiene **Process documentation & Protocols**

The **highest of hygiene standards** apply to surgical and dental instruments. Miele MOVE provides support in monitoring and documenting programmes with detailed **data capture**. Machine and process data is documented and visualised in user-friendly reports. This makes it easy to furnish proof of **compliance with prescribed process parameters** at programme level and collate, approve and export programme data to meet obligations to present proof in a medical environment.

Service optimisation **Interfaces & Reports**

Miele MOVE will inform you **automatically** of any irregularities. Forward reports to Miele Customer Service or an authorised service agent with ease. This gives service technicians access to all important information and ensures that **requisite spare parts** are on board the service vehicle to ensure **more efficient and faster maintenance and repair processes**. This **reduces service costs, saves time** and reduces downtimes to a minimum.

Short response times **Notifications**

More time for your patients: Miele MOVE notifies you proactively and across all products of individually selectable events. You and your team are kept up to date on the status of your machines at all times and anywhere, so are able to respond immediately when faults occur and when cycles end. This **streamlines processes** and **frees up capacities**.

Intuitive user interface **Dashboard & Widgets**

Convenient, clear and safe in use: Miele MOVE offers an intuitive interface with a **customisable dashboard**, personalised widgets and easy-to-understand symbols. You and your team can see the status of all machines at a glance, access all **relevant data at your fingertips**, and respond fast to any issues that may arise. This promotes independence, increases **process security** and simplifies compliance with **hygiene regulations**.

MOVE Ready: Our Compatible Models

From the end of 2023 onwards, PG 8582, PG 8582 CD, PG 8592 washer-disinfectors and PG 8581 and PG 8591 thermal disinfectors from Miele will be **MOVE ready** thanks to an integrated communication module.
