

Miele

You Keep Spaces Spotless.
**We Keep Your Equipment
Flawless.**

Miele Professional. Immer Besser.

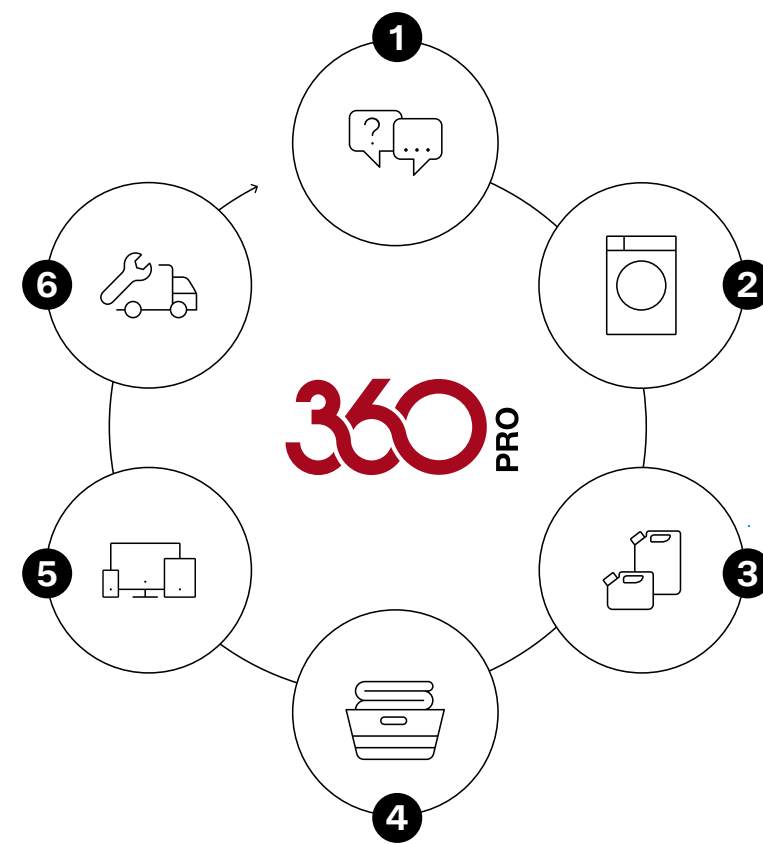

360 PRO

“ In our industry, one thing counts above all else: reliability. Our customers expect visible cleanliness — day after day. Miele Professional delivers the quality we can rely on. And the good feeling of conserving resources at the same time.

“

Miele 360PRO. The Complete System for Sustainable Cleaning Results.

Discover the holistic system solution that allows you to focus fully on first-class cleaning.

1 Consultancy

We analyse your requirements together: Which textiles are to be reprocessed? What is the volume? What are the requirements in terms of space and personnel? On this basis, we work with you to develop a customised concept that is efficient, sustainable and future-proof.

2 Machines

Our commercial washing machines and tumble dryers are designed to meet the requirements of cleaning businesses – they are robust, intuitive, energy-efficient and feature special programmes.

3 Accessories

Ergonomic plinths, simple connection options for external systems and precise dispensing systems: our accessories ensure that machine performance and operating processes interlink perfectly. For greater reliability, convenience and efficiency in daily routines.

4 Detergents and care products

ProCare Tex products are perfectly matched to Miele Professional machines and reprocessing procedures. They offer reliable hygiene and are gentle on textiles (even when low quantities are dispensed). For clean results and controlled consumption.

5 Digital products

Miele MOVE Connect allows you to keep an eye on your laundry processes. Whether machine status, usage data, programme documentation or maintenance forecasts – you gain transparency and can optimise your processes in a targeted manner.

6 Service

With an extensive service network, proactive maintenance and customised service solutions, we ensure your equipment is ready to use on a long-term basis. Whether commissioning, training or long-term protection through Miele PROtect – we ensure that your solution works reliably.

6 Good Reasons for Miele 360PRO.

The complete solution for maximum performance in everyday work.

Whether you are a small cleaning team or a large service provider with several locations – our system solutions adapt to your daily routine and support you in reliably reprocessing mops, cleaning textiles and workwear, day after day.

01

Reliability

With machines from Miele Professional, you can rely on durable German-made quality. For maximum operational reliability, day after day and use after use.

02

Hygiene

Textiles are reprocessed thoroughly with coordinated wash programmes, powerful tumble dryers and precisely dispensed detergents and care products. For consistently clean results.

03

Speed

Short programme running times and well thought-out processes save valuable time, ensuring your teams remain ready for action at all times and nothing comes to a standstill.

04

Efficiency

Efficient machines, resource-saving processes and robust technology ensure low operating costs and a healthy overall balance sheet.

05

Digitalisation

Miele MOVE Connect allows you to keep an eye on all machines – in terms of capacity utilisation, running time and maintenance. For greater transparency, control and forward-looking planning.

06

Sustainability

360PRO represents responsibility towards the environment and resources. Low water and energy consumption, detergents and care products, and durable technology are what set it apart.

Efficient Reprocessing Solutions for Everyone.

Every cleaning company has individual requirements. That's why 360PRO offers laundry and drying solutions in various sizes. For efficient processes, high hygiene standards and optimum results for any size of business.

Little Giants

The PWM 506 Mop Star and PWM 508 Mop Star are designed for the professional reprocessing of mops and cleaning cloths. They offer short running times, low resource consumption and a space-saving design for small to medium-sized businesses. We also have the ideal solution when it comes to drying: Little Giants fit in confined spaces, offer flexible installation options and are space-saving and efficient to use. Thanks to modern heat-pump technology, they do not require any vent ducting, eliminating the need for costly structural measures. This not only ensures greater flexibility in terms of installation, but also significantly lower energy consumption and particularly gentle drying of textiles.

www.miele.ie/pro/LittleGiants

Benchmark

The Benchmark washing machines are ideal for businesses with high capacity utilisation and large volumes of textiles. Powerful programmes, robust technology and optimised resource consumption guarantee reliable reprocessing even with continuous use. And to complement this, Benchmark tumble dryers offer maximum capacity and consistent results. For efficient processes and consistently high quality day after day.

ProCare Tex

Our detergents reliably remove residues, are gentle on materials and ensure hygienically clean results with every wash.

Miele PROtect

Miele PROtect protects your investment: with predictable costs, regular maintenance and fast support, you ensure maximum availability and reliable operation.

Miele MOVE Connect

Miele MOVE Connect gives you full control: an overview of all machines and processes, digital records, plannable maintenance and maximum reliability for your business.

Miele

Protection Deserves the Best Service.

Repairs and spare parts

Our goal is to deal with downtimes as fast as possible. We are there for you, coordinate appointments and guarantee the availability of suitable spare parts – even 15 years after machines are discontinued.

Routine service

Regular preventive maintenance is essential to prevent faults occurring in the first place. Opt for one of our routine options and benefit from long-term protection of your machines.

Testing and maintenance

Regular checks of process parameters increase operational reliability and ensure high standards of cleaning performance. We are also happy to advise you on how to optimise machine maintenance.

Our service is called PROtect.

PROtect combines comprehensive services, maximum cost control and the easy availability of spare parts. Our professional team carries out service work quickly and reliably, ensuring that equipment is installed in the best possible way and is always ready for use.

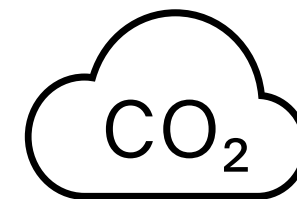

Find out more about our PROtect service solutions.

There Is Even More To Protect.

Spare parts available for up to

15 years

after the discontinuation of production.

Reduction in CO₂ emissions

Miele is already climate-neutral across all its locations. We have also pledged to reduce CO₂ emissions during the use of our products by **15 %** by 2030.

We test the **fluff filter flap** on our dryers:

100,000 x

100,000 x

The number of times the on/off switch on our washing machines and tumble dryers is tested.

30,000

The number of hours our **washing machines** are tested for.

Nothing Is Better Than **Personal Contact.**

We look forward to working with you on the best solution to meet your individual needs.
