Product Highlights – PerfectCool Refrigeration

Feature	Description <small>(see specific models for details)</small>
PerfectFresh Pro	Food stays fresh for up to five times longer. With automatically controlled temperature zones, PerfectFreshPro is Miele's best system for perfect storage conditions of fresh produce.
FlexiLight	Glare-free, LED glass shelf lighting.
ComfortClean	The shelves on the inside of the door are dishwasher-safe for easy cleaning.
DynaCool	With uniform distribution and circulation of temperature, store your food anywhere in the fridge and freezer.
SuperCool	Rapid and gentle freezing of food.
PerfectFresh	Active Perfect humidity at all times – whenever the door is opened and every 90 minutes, a fine water mist is sprayed into the drawer for a gentle layer of moisture.
FlexiLight 2.0	Individually adjustable glass shelf lighting; illuminated shelves can be custom-positioned and are entirely glare-free.
FlexiTray	Pivot-able glass shelf allows for items to be removed easily, even from a full refrigerator.
Miele@home	Access your appliance from your smart device for maximum convenience. Adjust fridge or freezer temperature, setting it to SuperCool while on the go.

- Soft closing of the door with SoftClose

Available Spring 2026.

Product Highlights – PerfectCool Wine Storage

Feature	Description <small>(see specific models for details)</small>
TouchControl Display	Incredibly convenient – a whole range of settings can be controlled easily with the tap of a finger on the touch display.
LED Lighting	Flush lighting strips present your appliance in the perfect light.
Push2Open	For a handleless design, just apply slight pressure to the door to open.
SoftClose	With just a gentle touch, our dynamic doors close on their own. Integrates perfectly within a handleless kitchen.
FlexiFrame Racks	Individual Beechwood slats can be easily moved to make room for larger wine bottles.
SommelierSet	Perfect for wine connoisseurs – prepare cooled wine glasses and wine for decanting. Drink perfectly conditioned wine even from opened bottles.
3D Bottle Presenter Shelf	Place your favorite bottles on display.
Temperature Zones	Precise temperature regulation, ensuring the best storage conditions for different wine types.
NoteBoard	Every bottle rack features a removable magnetic strip for labeling the types of wine bottles on the rack.

Product Highlights – MasterCool Refrigeration

Feature	Description <small>(see specific models for details)</small>
BrilliantLight Pro	Flush-fit LED lighting in the side panels, top frame, and backwall flood the interior with bright, even illumination – so everything is easy to see and beautifully showcased.
SmartLight	No more blinding fridge light at night. Every model is equipped with a light sensor that automatically adjusts its brightness.
M Touch Pro	New user interface with large high-resolution full-touch display that is conveniently positioned at the center of the appliance. Integrated tips for ensuring effortless maintenance such as changing the filter.
Gallon Bins	To prevent spills, open bottles are best stored upright. The new gallon bins make it easy to store even large containers in the door, keeping them accessible while freeing up shelf space.
Internal Water Dispenser	Seamlessly integrated water dispenser on the left side panel, providing cold, fresh water at any time. Thanks to the built-in filter, the water is always clean and ready to drink. Dispense manually or pre-set your favorites for your preferred glass or bottle size.
Spillproof Shelves	Spills and leaks are contained by the aluminum-framed glass shelves, preventing messes and making cleaning quick and easy. The shelves are height-adjustable and, depending on the model, available as full-width or split versions for flexible storage.
MaxLoad Hinge	Ensures safe storage of large amounts of food in the door shelves, while also offering flexible options for door panel materials.
FoodView	Up to four cameras inside the appliance capture images of key areas, including drawers, whenever doors are opened and closed. Viewable via the Miele app, these images help simplify shopping and reduce food waste.
Longlife	For food storage in an odor-free environment. This innovative filter system combines an active charcoal filter
AirClean Filter	integrated into the rear panel of the appliance's air circuit, effectively neutralizing odors. It is regenerable – cleanable up to five times in an oven – and only needs replacement every three years, hence reducing waste.
Freeze&Cool	Features a temperature range of +39.2° F to -0.4° F and 5 pre-set settings for maximum flexibility.
Dual IceMaker	Produce two different types of ice cubes (small and large) at the same time.
IceMaker	Always have daily, fresh ice cubes on hand. For ultimate convenience, use the included ice scoop.
MasterFresh Pro	Now standard in all models, MasterFresh Pro optimizes freshness by keeping food fresh up to 5× longer. It automatically adjusts humidity based on food type, ensuring ideal conditions and less waste.
DailyFresh ExtraCool	Fruit and vegetables stay fresh up to twice as long with the spacious and extra drawer. Featuring a temperature ExtraCool at approx. 35.6° F lower than the set refrigerator temperature – it's the perfect place for meat, fish and dairy products.
SlidingShelf	Store small items within easy reach without using much fridge space. Attached beneath a glass shelf, the sliding box keeps items organized and easily accessible without stacking.

All handles sold separately – See page 30 for full list of handle options.

Product Highlights – MasterCool Wine Storage

Feature	Description (see specific models for details)
MasterSensor Controls	Incredibly convenient: a whole range of settings can be controlled easily with the tap of a finger on the color touch display.
BrilliantLight	Each area of the unit is perfectly illuminated by many LED light strips strategically placed throughout.
Push2Open	For a handleless design, just apply slight pressure to the door to open.
SoftClose	With just a gentle touch, our dynamic doors close on their own. Integrates perfectly within a handleless kitchen.
Temperature Zones	Store up to three different types of wine with different temperature zones.
FlexiFrame Racks	Individual wooden slats can be easily moved to make room for larger wine bottles.
SommelierSet	Perfect for wine connoisseurs: prepare cooled wine glasses and wine for decanting. Drink perfectly conditioned wine even from opened bottles.
NoteBoard	Every bottle rack features a removable, magnetic strip for labeling bottles.
Miele@home/ Mobile Control	Access your appliance from your smart device for maximum convenience.
