

The science of anti-ageing... for food.

Double the life of fresh food with the **PerfectFresh** food preservation system.

PerfectFresh gives you the flexibility of separately controllable humidity zones, so you can store all kinds of fresh food in unique, individual atmospheres. This ensures the retention of optimum freshness and nutrient value, for longer. Classical design elegance doesn't have a short use by date. And nor should fresh food.

Design for life.

Model shown: FNS 37402 i and KS 37472 iD built-in fridge / freezer combination.
