

# Really smart developers go straight to the top.

**Burj Khalifa, Dubai. The world's tallest residential building.**

Miele appliances immediately elevate the status of a project, distinguishing it as head and shoulders above the rest. But communicating quality by associating your brand with the Miele brand and maximising buyer appeal is only part of the story. Having our professional Australian Specialist Project Team as part of your team will also take care of all the challenging details often associated with appliance design and delivery and ensure that it all happens on time and on budget. When you can have seamless integration, beautifully balanced proportions and inspired design, why would you risk downgrading the appeal of your project with anything less? Ensure your next development stands out from the crowd with Miele.
